

Business Deposit Processing

Now offered at branches via the **Dropbox Facility**

Business Deposit Processing

Cash and cheque deposits are now being offered at branches via the Dropbox Facility. This facility is accessible 24/7 and designed to provide prompt processing for credit to your account.

Please observe these Do's and Don'ts when using the Dropbox Facility:

Do's 	Don'ts 
 Batch notes according to denomination (eg. 1000s, 500s)	 Staple the notes
 Place deposit slips with corresponding batch of notes (multiple slips are included in the lodgement)	 Use clips to hold notes together
 Place deposit slips with corresponding batch of notes (multiple slips are included in the lodgement)	 Use tapes (masking duct, etc) to hold coins or notes together
 Clearly indicate AMOUNT and ACCOUNT being credited on the bag	 To prevent bags from being torn or damaged, do not overfill bag with cash. Bag should have room for cash to move around freely without damage. Damaged bags will result in delayed deposits

Other options for deposit Processing are provided by Beryllium Limited, namely Smart Safe and Cash in Transit. Should you wish to consider them for your business, please send an email directly to the Beryllium Limited team at BEservice@goberyllium.com or telephone number (876) 928-4947.

We remain committed to ensuring your banking is carried out securely and conveniently. Your patience and accommodation are truly appreciated and we will always find ways to either prevent or respond quickly to challenges encountered. If you have any issues regarding our Dropbox service, please feel free to reach out to us at cashprocessingsupport@jncb.com or your branch.
